## **E. SELECTED NOTES TO THE FINANCIAL STATEMENTS**

### **1. Corporate information**

Biolidics Limited (Registration No. 200913076M) is a limited liability company incorporated and domiciled in Singapore. The Company is listed on the Catalist of SGX-ST.

The condensed interim financial statements for HY FY2022 comprise the Company and its subsidiaries (collectively, the “**Group**”).

The principal activities of the Group and the Company are those relating to:

- (a) technology development, technology transfer, marketing, sale and distribution of biomedical technology, life and medicine science related products and services;
- (b) provision of laboratory services; and
- (c) investment holding.

### **2. Basis of preparation**

The condensed interim financial statements for HY FY2022 have been prepared in accordance with Singapore Financial Reporting Standards (International) (“**SFRS(I)**”) 1-34 *Interim Financial Reporting* issued by the Accounting Standards Council Singapore. The condensed interim financial statements do not include all the information required for a complete set of financial statements. However, selected explanatory notes are included to explain events and transactions that are significant to an understanding of the changes in the Group’s financial position and performance of the Group since the last audited financial statements for the year ended 31 December 2021 (“**FY2021**”).

The condensed interim financial statements are presented in Singapore Dollars which is the Company’s functional currency. All financial information presented in Singapore Dollars have been rounded to the nearest thousand, unless otherwise stated.

#### Material Uncertainty Related to Going Concern

The Group had recorded a net loss of approximately S\$2.29 million and a net operating cash outflow of approximately S\$1.99 million for HY FY2022, and as at 30 June 2022, was in a net equity deficit position of approximately S\$0.02 million. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Group’s ability to continue as a going concern. To improve the financial health and working capital position of the Group, the Company intends to undertake a renounceable non-underwritten rights issue of new ordinary shares in the issued share capital of the Company (“**Rights Issue**”). Please refer to the separate announcement made by the Company on 12 August 2022 for further details in relation to the Rights Issue.

To support that the financial statements of the Group have been prepared on a going concern basis and to ensure the adequacy of funds required to meet its obligations, working capital and capital commitment needs, the Group has prepared a consolidated cash flow forecast for a 12-month period from 1 July 2022 to 30 June 2023 (“**Cash Flow Forecast**”). In preparing the Cash Flow Forecast, management has taken the following into consideration:

- the challenges faced by the cancer business during the current COVID-19 pandemic and the impact of the emergence of competing and newer technologies on the sales of COVID-19 related products in the infectious diseases business;
- the forecasted cash flow from the laboratory services business which is mainly dependent on the projected sales uptake of its SARS-CoV-2 polymerase chain reaction (“**PCR**”) testing for COVID-19;
- the cost cutting measures that the Group has planned to streamline its businesses and manage cost;
- the estimated net proceeds to be raised from the Rights Issue.

After taking into consideration the Cash Flow Forecast, the board of directors of the Company (“**Board**”) is of the opinion that the Group and the Company will be able to operate as a going concern and that the use of the going concern assumption in the preparation of the consolidated financial statements of the Group for HY FY2022 is appropriate. The ability of the Group to fulfil its obligations will be dependent on the Group generating sufficient cash flows from its COVID-19 PCR testing services, and the ability to raise new funding, including from the Rights Issue.

In addition, due to the rapidly evolving nature of the COVID-19 pandemic, the COVID-19 PCR testing services is exposed to various uncertainties and challenges such as, among others, changes to regulation framework, and international travel policies and requirements, which could affect the sales uptake of the Group’s COVID-19 PCR testing services. The Group is closely monitoring the developments of the situation and the impact on its COVID-19 PCR testing services.

If the going concern assumption is no longer appropriate, adjustments may have to be made to reflect the situation that assets may need to be realised other than in the normal course of business and at amounts which may differ significantly from the amounts at which they are currently recorded in the statements of financial position. In addition, the Group and the Company may have to reclassify non-current assets and liabilities as current assets and liabilities, respectively. Such adjustments have not been made to these financial statements.

## 2.1 New and amended standards adopted by the Group

The Group has applied the same accounting policies and methods of computation in the preparation of the condensed interim financial statements for HY FY2022 as compared to those applied in the audited financial statements for FY2021 except for the adoption of new or revised SFRS(I) and Interpretations of Singapore Financial Reporting Standards (“**SFRS(I) INT**”) that are mandatory for financial years beginning on or after 1 January 2022. The Group has adopted all applicable SFRS(I) and SFRS(I) INT that are mandatory for financial years beginning on or after 1 January 2022. The adoption of these SFRS(I) and SFRS(I) INT has no significant impact on the Group’s consolidated financial statements.

## 2.2 Use of judgements and estimates

The preparation of the Group’s consolidated financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the disclosure of contingent liabilities at the end of each reporting period. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in the future periods.

The significant judgements made by management in applying the Group’s accounting policies and the key sources of estimation uncertainty were the same as those that applied to the audited financial statements for FY2021.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected.

Information about critical judgements in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is as follows:

- Identification of a cash-generating unit (“**CGU**”) - Management identified the Group’s cancer business, infectious diseases business and laboratory services business as the 3 CGUs in the Group, having considered the products and services being sold by the Group and the inter-dependency of the cashflows arising from the products and services provided within a CGU.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment to the carrying amounts of assets and liabilities within the next reporting period are included in the following notes:

- Notes 11, 12 and 13 - Impairment assessment of plant and equipment, right-of-use assets and intangible assets.

Based on the review carried out by the Group, management determined that there are indicators of impairment for the Group’s plant and equipment, right-of-use assets and intangible assets. The Group determines the recoverable amounts of the cancer, infectious diseases and laboratory services CGUs based on the income method. The income method is based on cash flow projections covering a five-year period. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows. The post-tax discount rates used for the cancer, infectious diseases and laboratory services CGUs are 10%, 30% and 15% respectively while terminal growth rate is 1%. The estimated recoverable amounts of the CGUs are in excess of the carrying amount of the CGUs. Accordingly, the Group concluded that no impairment is required to be recognised as at 30 June 2022.

- Note 14 - Impairment assessment of goodwill on consolidation

The recoverable amount of the laboratory services CGU, which goodwill has been allocated to, is determined based on the income method. The income method is based on cash flow projections covering a five-year period. The recoverable amount is most sensitive to the discount rate used for the discounted cash flow model as well as the expected future cash inflows.

- Note 19 - Share-based compensation

The Group measured the cost of equity-settled transactions with a director, employees and third-party individuals by reference to the fair value of the equity instruments at the date at which they are granted and the probability of achieving the predetermined performance targets and service conditions. Significant judgement and estimation are involved in determining the probability of achieving the predetermined performance targets and service conditions in computing the number of shares that will eventually vest during the vesting period.

### 3. Seasonal operations

The Group’s businesses were not affected significantly by seasonal or cyclical factors during HY FY2022.

#### 4. Revenue

The Group derives its revenue from the transfer of goods and services over time and at a point in time in the following major revenue streams. This is consistent with the revenue information that is disclosed for each reportable segment under SFRS(I) 8 (see Note 22).

## **11. Plant and equipment**

During HY FY2022, the Group acquired plant and equipment amounting to S\$14,000 (HY FY2021: S\$30,000) and transferred inventories amounting to S\$14,000 (HY FY2021: S\$42,000), that were loaned out to collaboration partners and customers, to plant and equipment.

### Impairment assessment of plant and equipment

The Group has carried out impairment assessment for plant and equipment by estimating the recoverable amounts of the respective CGUs of the Group as disclosed in Note 2.2 under Section E - Selected notes to the financial statements of this announcement. Included in the CGUs are plant and equipment, intangible assets and right-of-use assets. Based on the impairment assessment, no impairment was required as at 30 June 2022.

## **12. Right-of-use assets**

The Group has lease contracts for office and warehouse premises, laboratory space, and office and laboratory equipment used in its operations. Leases of office premise, laboratory space and warehouse premise generally have lease terms between 2 and 3 years, while office and laboratory equipment generally have lease terms of 3 to 5 years. The Group's obligations under its leases are secured by the lessor's title to the leased assets. Generally, the Group is restricted from assigning and subleasing the leased assets. There are no lease contracts that include extension or termination options and variable lease payments.

There were additions of right-of-use assets of S\$9,000 during HY FY2022. (HY FY2021: S\$nil)

### Impairment assessment of right-of-use assets

The Group has carried out impairment assessment for right-of-use assets by estimating the recoverable amounts of the respective CGUs of the Group as disclosed in Note 2.2 under Section E - Selected notes to the financial statements of this announcement. Included in the CGUs are plant and equipment, intangible assets and right-of-use assets. Based on the impairment assessment, no impairment was required as at 30 June 2022.

#### Impairment assessment of intangible assets

The Group has carried out impairment assessment for intangible assets by estimating the recoverable amounts of the respective CGUs of the Group as disclosed in Note 2.2 under Section E - Selected notes to the financial statements of this announcement. Included in the CGUs are plant and equipment, intangible assets and right-of-use assets. Based on the impairment assessment, no impairment was required as at 30 June 2022.

#### **14. Goodwill**

Goodwill arising from the acquisition of Biomedics Laboratory Pte. Ltd. represents the excess over fair value of assets and liabilities acquired.

#### Impairment assessment of goodwill

Goodwill that has an indefinite useful life is not subject to amortisation and is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired. The Group has carried out impairment assessment for goodwill by estimating the recoverable amounts of the respective CGUs of the Group as disclosed in Note 2.2 under Section E - Selected notes to the financial statements of this announcement. Based on the impairment assessment, no impairment was required as at 30 June 2022.

## 17. Deferred consideration

On 24 June 2022, the Company and SAM Laboratory Pte. Ltd. ("**SAM**") entered into a deed of amendment ("**Second Amendment Deed**") to modify, amend and vary the terms of the sales and purchase agreement entered into between the Company and SAM in connection with the acquisition of the entire issued and paid-up ordinary shares in the capital of Biomedics Laboratory Pte. Ltd. ("**Acquisition**").

Pursuant to the Second Amendment Deed, the remaining S\$3,300,000 of the deferred consideration shall be payable no later than 25 August 2023, being 39 months from the date of completion of the Acquisition. The movement of deferred consideration during the year is as follows:

	Group and Company S\$'000
Balance as at 1 January 2022	3,214
Gain from remeasurement of deferred consideration	15
<b>Balance as at 30 June 2022</b>	<b>3,229</b>

## 22. Segment information

For management purposes and resource allocation, the Group is organised into business operating units based on reports reviewed by the management team that are used to make strategic decisions.

(a) ***Cancer***

The cancer segment involves the identifying and assessing potential collaboration partners, technology, products and services, product development, innovation and improvement and the management of global distributorship network and direct customers in the cancer field.

(b) ***Infectious diseases***

The infectious diseases segment involves the identifying and assessing potential collaboration partners, technology, products and services, product development, innovation and improvement and the management of global distributorship network and direct customers in the infectious diseases field.

(c) ***Laboratory services***

The laboratory services segment involves the business, operation and provision of laboratory services to customers.

(d) ***Corporate segment***

The corporate segment involves the corporate functions in supporting the operations of the entire Group.

Segment profit represents the profit earned by each segment without allocation of other gains and losses, distribution and selling expenses, administrative expenses, finance income and finance cost. This is the measure reported to the chief operating decision makers for the purposes of resource allocation and performance assessment.

**1(d)(v) A statement showing all sales, transfers, cancellation and/or use of subsidiary holdings as at the end of the current financial period reported on.**

Not applicable.

**2 Whether the figures have been audited or reviewed, and in accordance with which auditing standard or practice.**

The figures have not been audited or reviewed by the auditors of the Company.

**3 Where the figures have been audited or reviewed, the auditors' report (including any modifications or emphasis of a matter).**

Not applicable.

**3A Where the latest financial statements are subject to an adverse opinion, qualified opinion or disclaimer of opinion:**

(a) Updates on the efforts taken to resolve each outstanding audit issue.

(b) Confirmation from the Board that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.

**This is not required for any audit issue that is a material uncertainty relating to going concern.**

The Company's independent auditors, Ernst & Young LLP, had issued a disclaimer of opinion (the “**Disclaimer of Opinion**”) in their independent auditor's report dated 11 April 2022 on the audited consolidated financial statements of the Group and the Company for FY2021. The basis for the Disclaimer of Opinion is in relation to (i) the use of the Group's going concern assumption and (ii) the impairment assessment of the Group's plant and equipment, right-of-use assets, intangible assets and goodwill, and the Company's investments in subsidiaries and other receivable due from a subsidiary.

*(i) Use of the Group's going concern assumption*

The Group had recorded a net loss of approximately S\$2.29 million and a net operating cash outflow of approximately S\$1.99 million for HY FY2022, and as at 30 June 2022, was in a net equity deficit position of approximately S\$0.02m. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Group's and Company's ability to continue as a going concern.

As disclosed under Note 2 under Section E - Selected notes to the financial statements of this announcement, management has prepared the Group's and the Company's financial statements for HY FY2022 on the basis that the Group and the Company will be able to carry on as a going concern for at least twelve months from the end of HY FY2022 based on factors disclosed in that note.

In the event the going concern assumption is no longer appropriate, the financial effects of adjustments to the carrying amounts, and the current and non-current classification of the Group's and Company's assets and liabilities as at 30 June 2022 could be material and pervasive and the Company is unable to determine the extent of the adjustments that may be required.

As announced by the Company on 24 June 2022, SAM Laboratory Pte. Ltd. (“**Vendor**”) had entered into a deed of amendment with the Company to extend the payment date by the Company to the Vendor of the deferred consideration of S\$3.3 million in connection with the acquisition of the entire issued and paid-up ordinary shares in the capital of Biomedics Laboratory Pte. Ltd. from 25 May 2023 to 25 August 2023.

To improve the financial health and working capital position of the Group, the Company intends to undertake a renounceable non-underwritten rights issue of new ordinary shares in the issued share capital of the Company (“**Rights Issue**”). Please refer to the separate announcement made by the Company on 12 August 2022 for further details in relation to the Rights Issue.

*(ii) Impairment assessment of the Group's plant and equipment, right-of-use assets, intangible assets and goodwill, and the Company's investments in subsidiaries and other receivable due from a subsidiary*

The Group's plant and equipment, right-of-use assets, intangible assets and goodwill (collectively, “**long-lived assets**”), amounted to approximately S\$0.57 million, S\$0.22 million, S\$3.32 million and S\$0.63 million as at 30 June 2022, respectively. These long-lived assets belong mainly to two of the Group's cash-generating units (“**CGUs**”) that represent the Group's Cancer and Laboratory Services business segments. Additionally,

the Company's statement of financial position as at 30 June 2022 included an investment in Biomedics Laboratory Pte. Ltd. ("**BML**") of approximately S\$3.57 million and a receivable due from BML of approximately S\$2.41 million. BML carries on the Group's Laboratory Services business segment.

Management has assessed that there exists an indication that the Group's long-lived assets and the Company's investment in BML may be impaired. Accordingly, management has determined that the recoverable amounts based on their value-in-use calculated using discounted cash flow projections, exceed their carrying amounts. Consequently, no impairment loss was recognised in relation to these assets as at 30 June 2022. Similarly, management has also determined that there was no expected credit loss in relation to the receivable due from BML as at 30 June 2022.

The Board confirms that the impact of all outstanding audit issues on the financial statements have been adequately disclosed.

**4 Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.**

Please refer to Note 2.1 under Section E - Selected notes to the financial statements of this announcement.

**5 If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.**

Please refer to Note 2.1 under Section E - Selected notes to the financial statements of this announcement.

**6 Earnings per ordinary share of the group for the current financial period reported on and the corresponding period of the immediately preceding financial year, after deducting any provision for preference dividends.**

Please refer to Note 10 under Section E - Selected notes to the financial statements of this announcement.

**7 Net asset value (for the issuer and group) per ordinary share based on the total number of issued shares, excluding treasury shares of the issuer at the end of the (a) current period reported on and (b) immediately preceding financial year.**

Please refer to Note 20 under Section E - Selected notes to the financial statements of this announcement.

**8 A review of the performance of the group, to the extent necessary for a reasonable understanding of the group's business. It must include a discussion of the following:**

- (a) any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and
- (b) any material factors that affected the cash flow, working capital, assets or liabilities of the group during the current financial period reported on.

## **REVIEW OF THE GROUP'S PERFORMANCE**

### **Revenue**

Revenue increased by 7.2% or S\$0.05 million, from S\$0.64 million in HY FY2021 to S\$0.69 million in HY FY2022, due mainly to an increase in revenue from rendering of laboratory services from S\$0.08 million in HY FY2021 to S\$0.23 million in HY FY2022. The increase was partially offset by a decrease in sales of our COVID-19 related products which amounted to S\$0.34 million in HY FY2022, as compared to S\$0.43 million in HY FY2021, due to a growing supply of antigen and antibody test kits which led to a highly competitive market under the constraints of intense price competition.

Revenue from the sales of our ClearCell® FX1 system, our CTChip® FR1 biochip and other related services and consumables decreased from S\$0.13 million in HY FY2021 to S\$0.11 million in HY FY2022.

### **Other income**

Other income increased by 43.9% or S\$0.08 million, from S\$0.19 million in HY FY2021 to S\$0.27 million in HY FY2022, due mainly to an increase of S\$0.06 million in government grant income.

### **Changes in inventories**

We recorded a decrease of S\$0.11 million in the closing balance of our inventories in HY FY2022, as compared to an increase of S\$0.16 million in HY FY2021. The fluctuations in the balance of our inventories were due mainly to the timing of purchase and sale of inventories.

### **Purchases**

Our purchases decreased by 57.8% or S\$0.53 million, from S\$0.92 million in HY FY2021 to S\$0.39 million in HY FY2022, in line with the decrease in sales of our COVID-19 related products during the period.

### **Employee benefits expense**

Employee benefits expense increased by 47.7% or S\$0.40 million, from S\$0.83 million in HY FY2021 to S\$1.23 million in HY FY2022, due mainly to increased hiring to support the growth of the laboratory services business.

### **Depreciation expense**

Depreciation expense remained relatively unchanged at S\$0.43 million in HY FY2022 and HY FY2021.

Amortisation expense

Amortisation expense remained relatively unchanged at S\$0.20 million in HY FY2022 and HY FY2021.

Research and development ("R&D") expense

R&D expense decreased by 56.9% or S\$0.22 million, from S\$0.39 million in HY FY2021 to S\$0.17 million in HY FY2022, due mainly to the reduction in R&D activities during the period.

Other expenses

Other expenses decreased by 43.4% or S\$0.50 million, from S\$1.15 million in HY FY2021 to S\$0.65 million in HY FY2022. The decrease was due mainly to a decrease of S\$0.41 million in professional fees (cash-settled).

Finance costs

Finance costs decreased by 17.6% or S\$0.02 million, from S\$0.11 million in HY FY2021 to S\$0.09 million in HY FY2022, due mainly to the reducing balances of the term loans.

Income tax credit

Income tax credit pertains to the reversal of deferred tax liabilities arising from the CAP Accreditation of Biomedics Laboratory Pte. Ltd..

Loss for the period

As a result of the foregoing, loss for the period decreased by S\$0.71 million, from S\$3.00 million in HY FY2021 to S\$2.29 million in HY FY2022.

**REVIEW OF THE GROUP'S FINANCIAL POSITION**

Non-current assets

The Group's non-current assets decreased by 10.8% or S\$0.58 million, from S\$5.31 million as at 31 December 2021 to S\$4.74 million as at 30 June 2022. This was due mainly to a decrease in plant and equipment, right-of-use assets and intangible assets of S\$0.23 million, S\$0.17 million and S\$0.18 million, respectively, which arose mainly from the depreciation and amortisation charges during the period.

#### Current assets

The Group's current assets decreased by 46.8% or S\$2.86 million, from S\$6.11 million as at 31 December 2021 to S\$3.25 million as at 30 June 2022. This was due mainly to a decrease in (i) cash and cash equivalents of S\$2.69 million; (ii) prepayments of S\$0.11 million and (iii) other receivables of S\$0.14 million, partially offset by an increase in trade receivables of S\$0.10 million.

#### Current liabilities

The Group's current liabilities decreased by 18.5% or S\$0.45 million, from S\$2.42 million as at 31 December 2021 to S\$1.97 million as at 30 June 2022. This was due mainly to a decrease in (i) other payables of S\$0.34 million, and (ii) trade payables of S\$0.08 million.

#### Non-current liabilities

The Group's non-current liabilities decreased by 9.5% or S\$0.64 million, from S\$6.68 million as at 31 December 2021 to S\$6.04 million as at 30 June 2022. This was due mainly to a decrease in (i) borrowings of S\$0.52 million comprising the non-current portion of working capital bank loans, and (ii) non-current portion of lease liabilities of S\$0.10 million.

### **REVIEW OF THE GROUP'S CASH FLOW STATEMENT**

Operating cash outflow before movements in working capital amounted to S\$1.71 million in HY FY2022. Net cash used for working capital amounted to S\$0.22 million due mainly to (i) a decrease in trade and other payables of S\$0.43 million, and (ii) an increase in trade receivables of S\$0.10 million, partially offset by (i) a decrease in other receivables of S\$0.14 million, and (ii) a decrease in prepayments of S\$0.11 million. As a result, net cash used in operating activities was S\$1.99 million in HY FY2022.

Net cash used in investing activities for HY FY2022 amounted to S\$0.05 million. This was due mainly to (i) additions to plant and equipment of S\$0.01 million, and (ii) additions to intangible assets of S\$0.03 million.

Net cash used in financing activities for HY FY2022 amounted to S\$0.64 million. This was due mainly to payment of S\$0.51 million and S\$0.14 million of the principal portion of borrowings and principal portion of lease liabilities, respectively in HY FY2022.

As a result, there was a net decrease in cash and cash equivalents by S\$2.69 million, from S\$3.96 million as at 31 December 2021 to S\$1.28 million as at 30 June 2022.

**A commentary at the date of the announcement of the significant trends and competitive conditions of the industry in which the group operates and any known factors or events that may affect the group in the next reporting period and the next 12 months.**

The global COVID-19 pandemic has had a significant impact on the global economy and businesses, as the Group adapts to the opportunities, challenges and uncertainties brought about by the COVID-19 pandemic. As a result, in addition to its liquid biopsy products, the Group had broadened its product and service offerings through the development and commercialisation of its own COVID-19 related products, as well as the sale and distribution of third-party medical and healthcare-related products and other technologies within the diagnostic space. In FY2021, the Group's clinical laboratory in Singapore has since also added medical microbiology (molecular microbiology) services, which includes COVID-19 PCR testing, as one of its service offerings which it will continue to offer in the current financial year ending 31 December 2022.

Nevertheless, due to the rapidly evolving nature of the COVID-19 pandemic, the Group continues to be exposed to various uncertainties and challenges such as the emergence of competing and newer technologies, product regulatory changes, and changes in travel policies and restrictions, which could affect the Group's commercialisation strategies and activities. The COVID-19 pandemic has also caused significant delays to the Group's development of its Cancer business segment.

To manage the challenges and uncertainties, including rising cost of conducting business, the Group has implemented cost rationalisation measures such as streamlining of its manpower structure, scaling down of the R&D research activities for its Cancer business segment, and reducing the engagement of external service providers. The Group will seek to constantly review its product and service offerings in order to keep pace with the above-mentioned uncertainties and challenges and ensure that the Group's business continues to stay relevant and sustainable. Further, the Group is in discussions with various parties to explore merger and acquisition opportunities to improve its financial performance. However, no firm agreement has been reached as at the date of this announcement.

The Group may also explore opportunities to monetise its assets, including its intellectual properties which is encapsulated in the ClearCell® FX1 system and will be undertaking the Rights Issue to strengthen its financial position.

The Company will continue to provide timely updates to shareholders should there be any material development affecting the Group's business and operations.
